

## Panasonic Portable nanoe™ X Generator MODEL NUMBER F-GPT01M

### What does it do?

- Purify the air around you with Panasonic's unique Portable nanoe™ X Generator, designed for your personal space.
- nanoe™ X technology inhibits up to 99% of indoor pollutants such as viruses, bacteria, mould and allergens and reduces odours for fresher, cleaner air.
- A small electrode inside the generator generates 4.8 trillion nanoe™ particles per second. A nanoe™ particle is a hydroxyl radical molecule encapsulated in water.
- These particles are dispersed and attach to airborne and surface-based pollutants.
- The pollutants are inhibited.

### How do you use it?

- Simply press the power button on top of the unit to begin operation.
- It can be operated by cable connection to USB ports, laptops, computers and power banks.
- The portable nanoe™ X generator has a modern, compact design weighing less than 0.4kg, so it can travel with you to purify different places – such as your office desktop, car, taxi, café or a hotel.

### What does it look like?

Styled like a travel mug, the matte black generator is discreet and easy to carry around.

### How much does it cost?

RRP is \$299.

### Where do you buy it?

The Portable nanoe™ X Generator will be available on [amazon.com.au](https://www.amazon.com.au) and from consumer electronic retailers.
